	RMB million

The Company determines the above annual cap for premiums ceded primarily based on the scale of total premiums expected to be ceded by the Company in the future and the historical data of premiums ceded to PICC HK. The scale of total premiums expected to be ceded in the future is determined based on the growth of historical annual premiums of the Company, the regulatory requirement on the percentage of premiums retained, the demand for risk diversification of the Company’s business, etc. The above annual cap for commissions is calculated based on the above annual cap for premiums ceded and the commission rates of ceded-out business.
